heritage

Barlow Tyrie is associated the world over with outdoor leisure furniture that strikes the highest notes in quality and style.

Since 1920, we have remained a family business that specializes in the manufacture of teak furniture to which we have now added furniture in hand-woven synthetic fibre, stainless steel and aluminium.

The pages of this catalogue present our widest ever choice of contemporary and traditional designs for the outdoor room. Our designers have combined pleasing designs with ergonomic performance to create furniture that opens life outdoors to a world of stylish possibilities.

armchairs • seats • benches • dining tables • tree seats • sun loungers • folding chairs • coffee tables

Through our commitment to produce the world's finest outdoor leisure furniture, we remain at the forefront of this rapidly changing industry and continue to demonstrate the best in British design and manufacturing expertise.

Thank you for choosing Barlow Tyrie and be assured that our customer service and after care match the excellence of our furniture.

We proudly welcome you into the elite group of owners of our furniture and look forward to being of service to you.

materials

Barlow Tyrie uses first grade plantation grown teakwood (*Tectona Grandis*), obtained from the most reputable, legal source in Indonesia.

With time, teak acquires a silver grey patina that complements any outdoor setting.

The high oil content of the teakwood used in our furniture enables it to withstand the harshest weather conditions with a minimum of maintenance. Teak is very stable and resistant to rot, which has made it the first choice for marine and outdoor use over the centuries.

We use two grades of stainless steel; 316 Grade, commonly known as 'marine grade' and 304 Grade, more commonly used for garden furniture.

Both 316 and 304 are hardwearing and suitable for use in inland locations whilst 316 is for use in coastal areas, marine and heavily chlorinated environments, where oxidation could be a problem.

You should note that all outdoor furniture, including stainless steel, requires some maintenance.

If you have any questions or concerns about the grade that is best for your area, then please contact your supplier or our customer service department.

For our aluminium furniture, we use 'Virgin Aluminium,' which means it is not reclaimed and is stronger and longer lasting as a consequence.

We chemically clean the aluminium and then powder-coat it to prevent oxidation and to ensure it gives long service with the minimum of maintenance.

We introduced our comprehensive woven ranges in recent years, since then they have become very popular.

We use the finest synthetic material that is hand-woven over a powder coated aluminium frame to produce splendid furniture that is strong, colour fast and entirely resistant to sun and rain.

Textilene® is woven from a PVC coated polyester, non-stretch yarn, which is strong and mildew resistant.

We use Textilene® for the fabric slings on our teak, stainless steel and aluminium furniture to incorporate colour, comfort and weather resistance.

Our range of luxury cushions adds that personal touch to your furniture. We use Sunbrella® fabric, made from 100% solution dyed acrylic fibre that is colourfast and resistant to mildew.

Our cushions are available in a range of outstanding solid colours and stripes.

The best furniture deserves only the very best cushions.

pavilions & parasols

Our parasol canopy fabric is made from 100% solution-dyed acrylic yarn. The colour locks deep inside the yarn to give excellent resistance to the fading often caused by sunlight and cleaning.

The fabric has a stain repellent applied to make cleaning easier, which you should re-apply after cleaning.

We recommend that you clean the canopy regularly to prevent the accumulation of dirt in the fabric, which can encourage the growth of mildew.

All Barlow Tyrie parasols will close over our standard height dining tables that have parasol holes, except our High Dining Tables.

Pavilions are permanent structures made from the highest quality heavy duty aluminium, with the roof and full curtains from Sunbrella® fabric, which is woven from 100% solution-dyed acrylic yarn.

For areas which experience heavy snow fall, do not allow snow or ice to accumulate on the Pavilion roof as this may cause structural damage.

Anchoring the Pavilion

For safety, Pavilions should always be securely fastened to the ground.

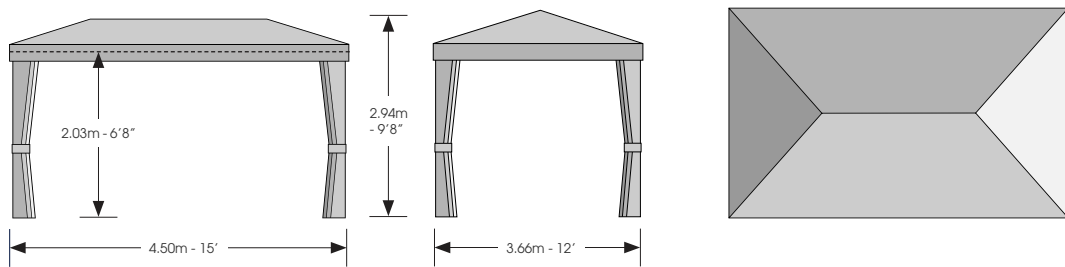

See assembly instructions for details of various securing methods.

The Permo Lock anchoring system is the recommended method that offers a strong permanent solution for anchoring your Pavilion and to protect it against the wind.

If Sunbrella® Curtains are chosen then Corner Dressing and Corner Ties are not required.

Only one set of curtains can be used on the 12 x 10 Pavilion whilst both sets can be used on the 12 x 15 and 12 x 20 Pavilions

features

**Sunbrella®
Curtains**
(optional)

Curtains that give maximum protection, complete privacy and can be fully closed with a zip.

Sheer Panels
(optional)

A perfect way to add ambience to your entertaining, a sheer, light screen that adds movement in the breeze or can be used to shield the sun.

Mesh Curtains
(optional)

Provides a see through shield from the elements and can be fully closed with a zip. The curtains may be drawn on just one or two sides to provide shelter from the wind or strong sunshine.

**Heating and
Lighting**
(optional)

This infrared short-wave radiant heater instantly provides comfortable heat as soon as it is switched on. The integrated lighting units may be rotated 180°.

(This design is not available in the USA)

**Corner
Dressing**

Dresses the four corner posts but are not required if the Pavilion has Sunbrella® curtains.

Corner Ties

Used to tie back the Corner Dressing or curtains if fitted

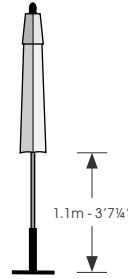

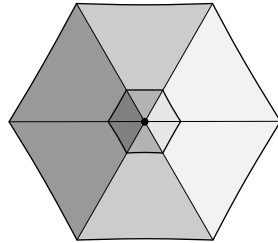

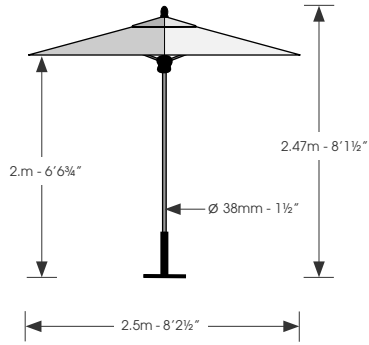

Cabrio Roof
(optional)

An optional folding Cabrio roof, which can be opened to allow in the sun; available on the 3.66 x 3.00m - 12' x 10' pavilion only.

specifications

In the following section, we show all our products with a full specification.

Product dimensions and weights are approximate.

Whilst we take care to reproduce colours as accurately as possible, you should only use them as a guide, due to the limitations of the printing process.

Cushions we supply in North America might be different in style and colour from those illustrated.

cushions

We manufacture our cushions using Sunbrella® fabric, made from a durable, 100% solution dyed acrylic fibre that is very colour fast in sunlight. A stain repellent is applied to the fabric, although it will withstand vigorous cleaning if necessary.

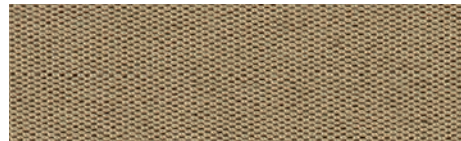

Our cushions have a water repellent finish but are not waterproof and should not be left out in heavy rain. If cushions become saturated, then place them on one edge and allow the water to drain away until they are thoroughly dry. Do not store cushions when they are wet.

USA only: COM and other colours to special order. Cushion colours depicted may be different in the USA.

Please allow five weeks delivery for Optional Colours

parasols

Parasol canopy fabrics are made from solution-dyed acrylic yarn, with the colour locked deep inside the yarn to give excellent resistance to the fading often caused by sunlight and cleaning. A stain repellent has been to the fabric to make cleaning easier.

.300 Forest Green

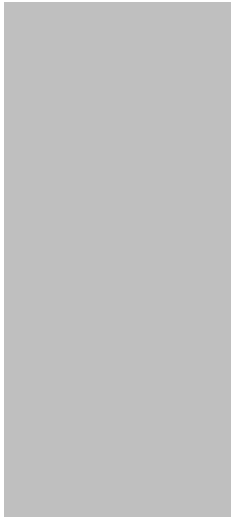

.306 Oyster

.308 Black (Special order only in USA)

pavilions

The Pavilion roof and full curtains are made from Sunbrella®100% solution-dyed acrylic yarn, with the colour locked deep inside the yarn to give excellent resistance to the fading often caused by sunlight and cleaning.

.1275 Stone

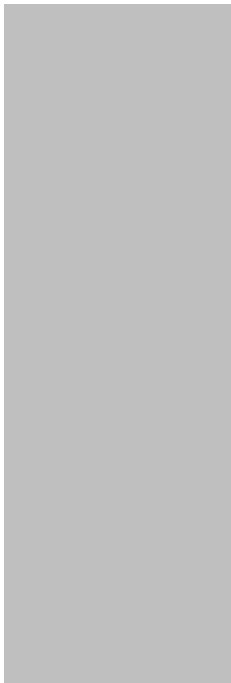

.4781 Chocolate

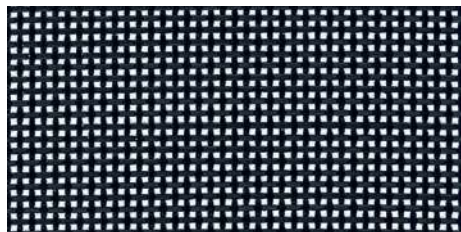

.4642 Oyster

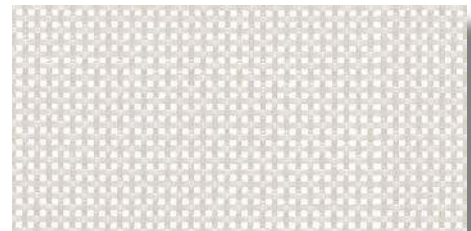

slings

The slings on our furniture are made from Textilene®, which is woven from PVC coated polyester non-stretch yarn. This material guarantees our slings are strong, durable, and mildew resistant requiring the minimum of maintenance.

.500 Charcoal (Equinox, Eclipse, Horizon, Loop, Mercury, Quattro)

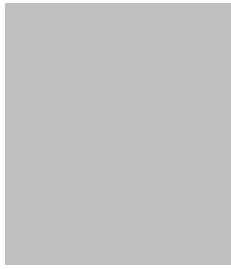

.501 White (Equinox, Eclipse, Horizon, Loop, Mercury, Quattro)

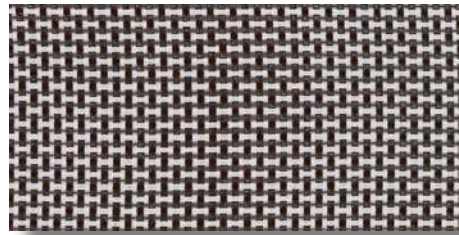

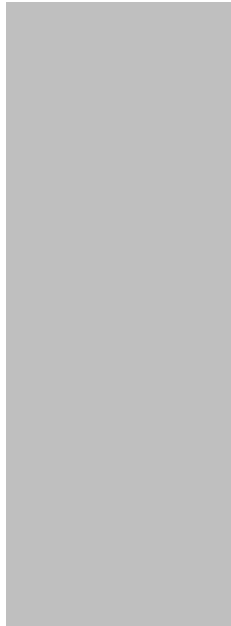

.502 Titanium (Equinox, Eclipse, Horizon, Loop, Mercury, Quattro)

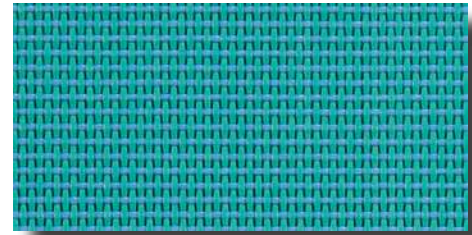

slings

aluminium

.504 Platinum
(Equinox, Eclipse, Horizon, Loop, Mercury, Quattro)

.503 Aquamarine
(Equinox, Horizon, Mercury, Quattro)

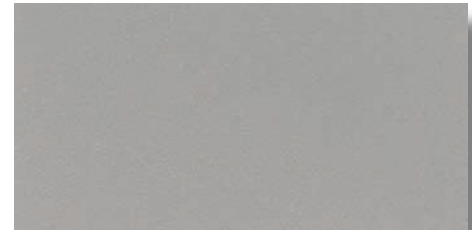

For our aluminium furniture we use what is known as "Virgin Aluminium". We chemically clean each item and then powder-coat the aluminium to prevent oxidation and to ensure it gives long service.

.02 Arctic White
Frames: Aura, Eclipse, Loop
Arm Inserts: Equinox, Mercury, Quattro

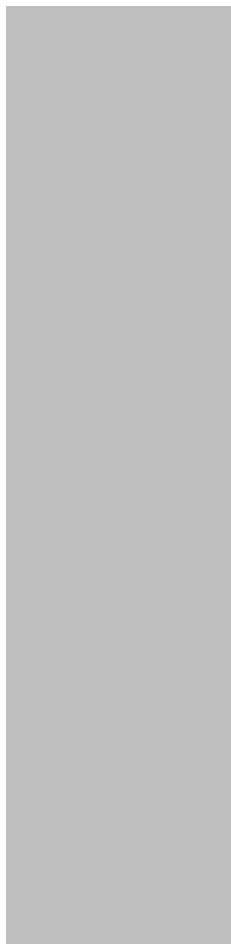

.01 Graphite
Frames: Aura, Eclipse, Loop
Arm Inserts: Equinox, Mercury, Quattro

.03 Quicksilver
Frames: Eclipse, Loop

woven

We use a synthetic fibre that is colour fast, exceptionally strong and completely resistant to sun, rain and requires the minimum of maintenance.

table tops

glass

Although made to withstand the rigours of an outdoor environment, your furniture will benefit from regular care and maintenance. For each type of our furniture, we produce a care product that is easy to use and will help maintain its 'just bought' look. Normally, you will need to treat your furniture only once or twice a year, dependent upon location.

.604 Sea Ice (*Mercury*)

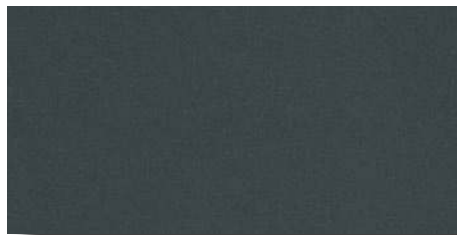

.605 Platinum (*Mercury*)

.606 Charcoal (*Mercury*)

Our Mercury dining table tops are made from clear tempered glass with the colour applied to the under surface with a hard wearing ceramic paint. The top surface has been acid etched and sand blasted to achieve a luxurious tactile matt surface.

high pressure laminate (HPL)

.700 Slate Grey (*Equinox, Mercury*)

Our HPL (High Pressure Laminate) table tops are unaffected by rain, sun, mold or rot. They have high colour stability and are UV resistant. The surface has a smooth, wipe clean finish that ensures dirt does not accumulate.

ceramic

Grey (*2MES Mercury Serving Table only*)

The Laminam ceramic we use is weather resistant, has high colour stability, wipe clean finish and is scratch proof. The ideal outdoor work surface.

covers

These lightweight, one way breathable covers allow trapped moisture to disperse, but prevent rain and dust from penetrating. A unique fastening ensures a secure fit. The covers are easy to put on, remove and can be stored in their own pouch when not required.

Code	Description	To Fit

400784	Large Rectangular Coffee Table	603651

inscriptions

The Barlow Tyrie inscription service may be used with most of our teak Armchairs and Seats. The inscription is normally on the front of the top rail.

The carving is in a traditional serif typeface using a 'V' shaped cut, which allows the inscription to be easily read from the side as well as from immediately in front. A 'straight' cut letter does not have this advantage.

As an alternative to carved inscriptions we also offer Bronze Plaques with lettering set in cream vitreous enamel. The finished plaque is then recessed into the face of the rail and held in position using a special hidden vandal proof fitting.

security

Galvanised seat security fasteners for setting into concrete for all teak seat models to prevent unauthorised movements of seats in public areas.

A set of four polished brass seat security fasteners to prevent unauthorised movements of seats in public areas. Supplied with tamper proof fixings for concrete, paving and wood.

product care

Although made to withstand the rigours of an outdoor environment, your furniture will benefit from regular care and maintenance. For each type of our furniture, we produce a care product that is easy to use and will help maintain its 'just bought' look. Normally, you will need to treat your furniture only once or twice a year, dependent upon location.

However, harsher environments such as coastal or chlorinated pool areas may need more frequent maintenance. Spotting on the surface, which appears to be rust, may occur, although unsightly, you can easily remove any contamination with "Barlow Tyrie Stainless Steel Clean and Guard", which cleans the stainless steel and leaves a fine layer of Teflon® on the surface to help prevent the build up of contaminants.

Stainless Steel Clean & Guard

Ref. 4SSCG
Cleans stainless steel and leaves a fine layer of Teflon on the surface to help prevent the build up of contaminants. Supplied with its own special applicator pad.

Contains 1litre/33oz

Teak Cleaner

Ref. 4TC
Cleans and restores discoloured, dark grey teak. Contains brightener ingredients which will restore your teak to its original colour. Supplied with its own special applicator pad.

Contains 1litre/33oz

Powder Coated Aluminium Cleaner

Ref. 4AC
Easily removes dirt and grease, oil, pollutants and mould from the furniture. Supplied with its own special applicator pad.

Contains 1litre/33oz

Teak Stain Guard

Ref. 4TSG
Forms an invisible layer to protect your teak from everyday stains such as butter, oil and red wine, making the cleaning of accidental spills an easy task. Supplied with its own special applicator pad.

Contains 1litre/33oz

Textilene & Woven Non Foam Cleaner

Ref. 4WTC
A non foaming cleaner that maintains woven furniture and Textilene® without unsightly residue remaining after the cleaning process. Supplied with its own special applicator pad.

Contains 1litre/33oz

Teak Colour Guard

Ref. 4TCG
Maintains the golden brown colour of new teak. Supplied with its own special applicator pad.

Contains 1litre/33oz

Fabric Cleaner

Ref. 4FC
Removes dirt and grease, oil, pollutants and mould from our cushions. Supplied with its own special applicator pad.

Contains 1litre/33oz

Teak Oil

Ref. 4TO
Traditional method of retaining original colour of new teak.

Contains 500ml/16oz

Fabric Weather Guard

Ref. 4FWG
Protects the fabric and slows down the aging effects of weathering. Supplied with its own special applicator pad.

Contains 1litre/33oz

Anti Wasp Solution

Ref. 4WS
Deters wasps from defacing the surface of weathered wood.

Contains 1litre/33oz

Note: Not available in the USA

Which materials does Barlow Tyrie use?

We combine the highest quality materials with superior craftsmanship and design to produce our furniture, resulting in worldwide recognition of our brand as representing the best in outdoor furniture. To our renowned range of the highest grade teak furniture we have now added Textilene®, stainless steel, aluminium and synthetic woven materials, to produce contemporary designs to the same high standard.

Teak
What are the properties of teak?

Teak is a deciduous hardwood tree from managed plantations, it does not come from tropical rainforests. Teak has a naturally high oil content which makes it both stable and resistant to rotting when exposed to climatic extremes. For centuries these special qualities have made teak the preferred choice for marine decking and construction, hence it is considered the premium timber for outdoor furniture.

What is the Forest Stewardship Council (FSC) ?

The Forest Stewardship Council is an international, non-profit association whose members include environmental, social groups, progressive forestry and timber related companies who are working together in order to improve forest management world-wide. The trademark of the FSC on a product indicates that the wood used to make it comes from a source that has been certified by the FSC as being well managed and meeting the environmental, social and economic standards that have been set by the FSC. The FSC certificate is only granted to organisations following an annual audit to confirm their compliance with FSC standards. Our audit is performed by an FSC accredited audit organisation called Smartwood and our Chain of Custody code is SW-COC-000090.

Does Barlow Tyrie produce any FSC certified furniture ?

Yes. Selected products displayed in store and held in stock are FSC certified, as are the stocks held at Barlow Tyrie on the behalf of John Lewis. Other products, which may be ordered from the Barlow Tyrie range may not be FSC certified.

What is the teak weathering process ?

Over a period of time in an outdoor environment teak will weather to a beautiful silver grey. The length of time this takes will vary with exposure to different climatic conditions.

Why do occasional cracks appear on my furniture ?

Teak is a natural material and as such fine cracks in the end grain of components, e.g. legs and arms, may appear and then disappear with variations in the weather and the consequent change in the moisture content of the wood. Such fine cracks are normal, especially in heavier components, and will not affect the life or serviceability of your furniture.

Do I need to store my furniture during the winter ?

No, Barlow Tyrie teak furniture can be left outdoors, uncovered, all year round. If you choose to cover your furniture outdoors during the winter you should use a material that allows the wood to breathe.

Stainless Steel
What are the properties of stainless steel?

We use two grades of stainless steel; 316 Grade, commonly known as 'marine grade' and 304 Grade, the most commonly used for garden furniture. 316 and 304 grades are both suitable for use in inland locations, but 316 grade is suited for most coastal areas and marine environments. 304 and 316 grade should not be used in heavily chlorinated indoor environments.

If you have any questions or concerns about which grade is best suited for your area, please contact customer service.

We recommend the following Barlow Tyrie product to care for and maintain your Stainless Steel furniture

- *Stainless Steel Clean & Guard*
 Cleans stainless steel and leaves a fine layer of Teflon on the surface to help prevent the build up of contaminants.

Aluminium
What are the properties of aluminium?

Aluminium is lightweight and for this reason, we have included it in our range. The aluminium we use is 'Virgin Aluminium', meaning it is not reclaimed from scrap, making it stronger and longer lasting. We powder-coat the aluminium to prevent oxidation and ensure it gives long service. We recommend the following Barlow Tyrie product to care for and maintain your Aluminium furniture

- *Powder Coated Aluminium Cleaner*
 Easily removes dirt, grease, oil, pollutants and mould.

Care of teak
How do you clean teak?

Teakwood will naturally weather from golden brown to a silver grey colour. We recommend the following range of our Barlow Tyrie products to care for and maintain your Teak furniture.

- *Teak Cleaner*
 Will quickly remove accumulated dirt
- *Teak Stain Guard*
 Forms an invisible layer to protect your teak from everyday stains such as butter, oil and red wine, making the cleaning of accidental spills an easy task.
- *Teak Colour Guard*
 Will maintain the golden brown colour of new teak by using UV inhibitors to prevent the natural greying process and pigment enhancers to help maintain the natural colour of teak.

If you live in the UK and wish to maintain your furniture using our care products, but do not wish to do the work yourself, then we recommend you contact www.teakcare.co.uk who can provide a regular or one time service according to your needs

Do I need to oil my teak furniture?

Treating with teak oil or other preservatives is not necessary, it will not extend the life of your furniture and is purely cosmetic. We do not recommend oiling your furniture.

Will the metal fittings on my furniture last as long as the teak?

We only use the best marine quality solid brass and stainless steel on our furniture. Neither of these will rust nor deteriorate with age.

Do I need to use a base if I am locating a parasol through a dining table?

Yes, all parasols must be located in the recommended parasol base for safety reasons. We supply our standard parasol base for when you wish to use a parasol through a dining table, a free standing base is available for use without a table. Standard parasol plates are available for when a parasol is required for the Equinox Pedestal Tables.

Can we use any of your chairs with any of your tables?

Our dining chairs and tables are made to a standard that gives the correct distance between the seat and the table top, which ensures you are comfortable when eating. You can confidently purchase any of our chairs with any of our tables depending on your design preference and the number of people you wish to seat.

Allgemeine Geschäftsbedingungen

Barlow Tyrie Limited behält sich das Recht auf Spezifikationsänderungen ohne vorherige Ankündigung vor. Bei Bestellungen bitte Artikelnummer angeben.

Zusammenbau

*Gewisse Montage erforderlich

Baumbänke

Zwei Hälften werden benötigt um eine Baumbank zu vervollständigen. Falls gewünscht, kann jede Hälfte einzeln geliefert werden.

Tische

Tische werden mit einer Halterung für Sonnenschirmstangen in einer Stärke bis 70 mm geliefert. Davon ausgenommen sind der ausziehbare Apex-Esstisch sowie die Tische Mercury und Quattro, die keine Schirmstangenlöcher haben. Die Esstische der Reihe Edinburgh und der Bistrotisch Equinox weisen ein Schirmstangenloch in einer Stärke von 40 mm auf. Zur Verwendung ohne Sonnenschirm wird ein massiver, gut abschließender Einsatz im entsprechenden Material geliefert.
